

NAME SECONDNAME

asdfghjasdfg@email.com | +91 123455674

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of professional experience specializing in scalable backend architecture, robust RESTful API development, and web application design. Proficient in Python, FastAPI, and Java-based systems, with a strong background in optimizing database queries and securing third-party integrations. Proven track record of translating complex requirements into clean, maintainable, and high-performance code while collaborating in cross-functional Agile environments.

SKILLS

Languages: Python, Java, Shell Scripting, HTML, CSS

Frameworks: FastAPI, REST API, Spring, JPA, Hibernate, Bootstrap

Databases: Oracle SQL

DevOps: Jenkins

Tools: Git, Postman

Others: Linux

PROFESSIONAL EXPERIENCE

Software Engineer | Tata Consultancy Services

2022 - Present

- Architected and implemented a high-performance responsive client dashboard utilizing React.js and Tailwind CSS, significantly improving data visualization and optimizing client-side performance to reduce page load times by 40%.
- Engineered secure and highly scalable RESTful APIs with Node.js and Express, integrating third-party payment gateways and implementing robust authentication protocols.
- Collaborated closely with cross-functional teams, including product managers, frontend developers, and QA engineers, to deliver 5+ major product releases within fast-paced Agile sprint cycles.

PROJECTS

EDUCATION

Bachelor of Technology (Hons.) in Computer Science and Engineering

XYZ College of Engineering

2018 - 2022

Higher Secondary Education

QWE Higher Secondary School

2016 – 2018

CERTIFICATIONS

- Oracle SQL Course (Udemy)
- Learning Git and GitHub (LinkedIn)
- Programming in Java (NPTEL)
- Crash Course on Python (Coursera)
- Web Development Bootcamp (Udemy)
